## Search Engine Listings and LocateGB.com

Google and other search engines visit LocateGB and take a snapshot of the pages at any given time. The snapshot does not contain your full address. This snapshot then helps make up this listings page. When we remove a record from LocateGB.com this does not automatically remove the link as shown on Google and other search engines. Once your record id is removed, the link provided by Google will no longer display the record that has been the subject of a removal request.
